Eye Spy Optometry

Altro Lavencia™ performs as good as it looks

Owner and Optometrist Mark Ross opened his own clinic Eye Spy Optometry, located in Calgary, Alberta. Ross wanted a flooring product that was durable and easy to maintain. He also needed the floor to match his interior space; requiring his floor choice to be warm, welcoming, and an accent to his light and bright interior.

With the help of Charlene Threatful at Lush Interiors, Altro Lavencia Contract in Savannah Oak was chosen to meet these demands. KBM Commercial did an outstanding job installing the flooring.

The Altro Lavencia collection of luxury vinyl tiles and planks (LVT) is made from high quality vinyl. The patterns exude the natural beauty of the materials which inspire our designs with none of the practical drawbacks. Available in three distinct ranges, Altro Lavencia blends style and performance while bringing a classic look to any commercial or residential application. The collection contains wood and stone visuals, and is made of 30% recycled content.
